

The 2006–2007 Janus Media Review  
A Look Back To Get a Look Forward  
Wed Jan 31, 2007

2006 Aha! Blogolicious! Media Innovator Winners -- this award goes to any individual or group that I feel can not only succeed but innovate their genre, bringing a fresh new perspective and new twists to their music, art, film, dance, etc., regardless of their particular genre. Any individual or group that I find that meets these requirements will win, since it isn't about a category of media, but more about what they bring to the world of media. If I don't find a particular type of media genre winner, then I don't try to force it by giving it to a group in that genre. This is about innovation and potential to make an impact—not filling a slot.

There are several winners this year, they are, in no particular order:
